As part of our clinical librarian service, I attend clinical meetings and provide research support to attendings, residents, and students on patient rounds. Often, during rounds, clinicians require evidence to help inform patient care. My goal is to locate that evidence in the literature and share it with the team.

I also act as a liaison to the departments and divisions listed below. If you are a member of any of these groups, please feel free to contact me for assistance via email or phone.
