[Email Matt](#)

Matt is a trained bioinformatician with a wide range of experience in informatics and data science. He has developed, directed, and taught data science courses in the Driskill Graduate Program, the Health Sciences Integrated Program, and the Master of Science in Clinical Investigation Program. As Head of Galter's Digital Systems Department, Matt oversees the creation, development, and maintenance of the library's website, as well as the evaluation and implementation of systems that support the goals and mission of the library and Northwestern University. He leads the DataLab, a research support core that designs

and develops novel, sustainable data services throughout all stages of the research data life cycle. He is the Northwestern Project Lead for [InvenioRDM](#), a multi-site collaborative project led by CERN to build a turn-key, next-generation research data management platform. Matt also serves as the Director of Data and Technology for the [NNLM](#) National Evaluation Center (NEC).
